---

## Professional Summary

Dedicated and detail-oriented React Developer with 2 years of full-stack development experience. Proficient in creating scalable and responsive web applications with a strong focus on React, SCSS, Redux, and React Router. Complemented by expertise in full-stack development, including RESTful API creation with Java, GCP deployment, and Python for web scraping. Skilled in mentoring team members and contributing to cross-functional teams.

---

## Technical Skills

- **Front-End:** React, Redux, SCSS, JavaScript, Next.js, React Router, Typescript
  - **Back-End:** Java, Spring Boot, Firebase, RESTful APIs
  - **Cloud:** Google Cloud Platform (GCP)
  - **Other Tools:** Git, Figma, CI/CD, Firebase Authentication
  - **Programming Languages:** Java, Python
- 

## Professional Experience

### Associate software engineer

*Cognived Solutions — Bengaluru*

**12/2022 – 02/2025**

- Developed responsive and dynamic user interfaces with React, SCSS, and Redux, ensuring seamless user experiences.
- Converted Figma designs into pixel-perfect web pages, maintaining design integrity and enhancing usability.
- Created RESTful APIs with Java and Spring Boot, facilitating efficient communication between front-end and back-end.
- Deployed applications on Google Cloud Platform (GCP), optimizing scalability and performance.

- Conducted code reviews and mentored an intern on React workflows, debugging, and best practices.
  - Utilized Python for web scraping tasks, automating data extraction processes.
  - Led the development of an admin portal integrating real-time data and advanced user controls, deployed successfully in production.
- 

## **Projects**

### **Admin Client Dashboard**

- Designed and implemented a React-based admin dashboard for managing product activities and a survey portal.
- Utilized SCSS for styling, Redux for state management, and React Router for routing.
- Features include real-time data visualization, user authentication, and responsive design.
- Backend integration with Spring Boot ensured seamless data operations.

### **Travel & Tour Application**

- Collaborated with a team to build a React-based travel and tour application.
- Contributed to front-end development, integrating SCSS, Redux, and React Router for smooth navigation and styling.
- Enhanced the application's scalability and usability through collaborative efforts.

### **Survey Application**

- Created a survey application using React, designed to collect and manage user feedback efficiently.
  - Utilized SCSS for consistent and responsive styling, Redux for robust state management, and React Router for smooth navigation.
  - Implemented features like survey creation, real-time response collection, and analytics visualization.
- 

## **Education**

**Graduation: Bachelor of Arts (English literature), 2022**

**Full Stack Web Development Bootcamp, 2022**

Zero to Mastery Academy

**Advanced JavaScript Course, 2022**

Udemy
